GRANTED CASE STUDY

DASHBOARD

£50,000 FEASIBILITY STUDY GRANT AWARDED BY HORIZON 2020

NEW OPPORTUNITIES

Dashboard is an early stage technology company formed to develop and market a remote monitoring solution for the collection and consolidation of near-real-time data from sensors.

A cleantech company, Dashboard have developed "Limpet" - an alternative solution to monitoring gas and oil pipelines for leaks and breaches.

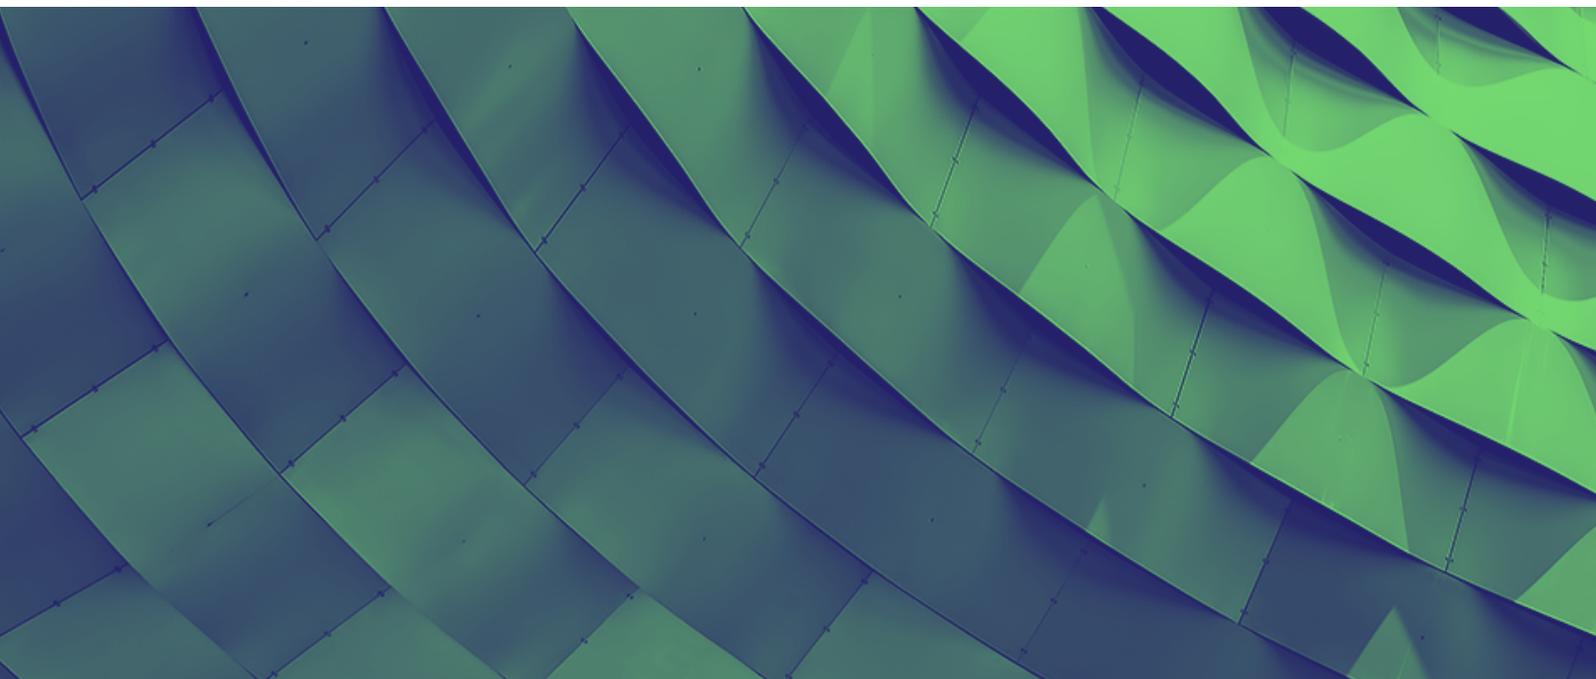

THE CHALLENGE

The challenge facing Dashboard is shared by most early-stage innovation-led businesses – how to fund the expensive investment required to attract talented people and successfully deliver expensive R&D projects?

The team at Granted brought clarity and ultimately success to our attempt at securing grant funding from Horizon 2020 – the flagship EU R&D grant fund. As a technology company driven by innovation a contribution towards what is a major expense in our ongoing R&D projects is most helpful – the grant contributed 70% of the total project costs. I would highly recommend getting in touch with Granted if you are looking for support in raising funding

DASHBOARD

GRANTED'S APPROACH

After having developed multiple successful UK & EU funding bids in the cleantech sector, Granted had a proven template for success. With their indepth knowledge of current grant opportunities, the Granted directors were confident that Dashboard stood an excellent chance of obtaining funding. Following an initial scoping meeting with the Board, Granted developed a Grant Portfolio to capture the key project information from which the grant applications could be developed.

Granted approached this project by:

- Gaining a deep understanding of the client's plans
- Comprehensively researching the available funding for the proposed project
- Preparing a comprehensive Grant Portfolio
- Developing and submitting grant applications

CONCLUSION

Securing this grant has cashflowed the commercialisation of Limpet and will see the solution positioned as the market leading flow rate leak detection system for oil and gas pipelines.

GRANTED CASE STUDY DASHBOARD

We have never failed to secure more money in grants, than we have charged in fees when working with an organisation on a defined multi-grant funding plan.

**DEMONSTRABLE
SUCCESS**

Demonstrable success
in securing funding
(>£20m in 5 years).

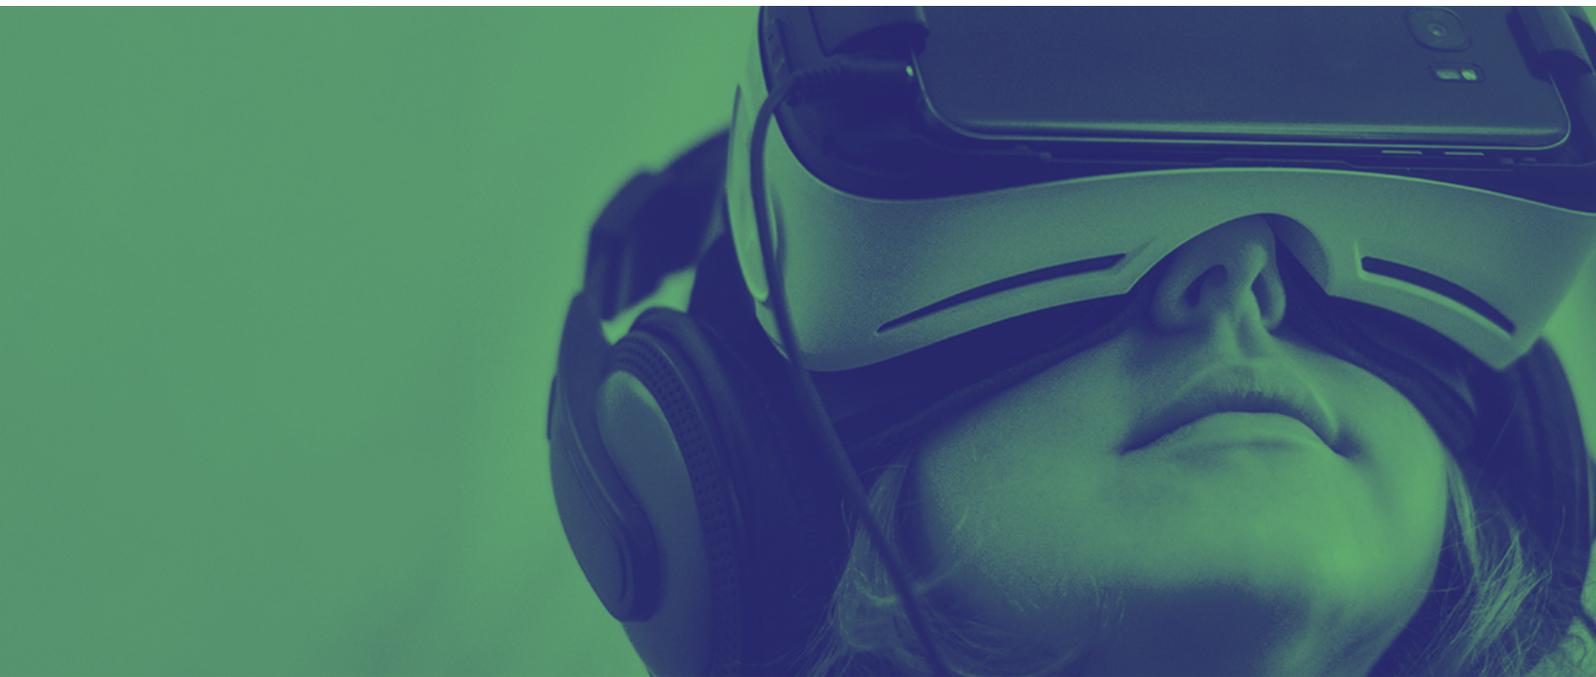

**DEEP
KNOWLEDGE**

Deep knowledge of
funding options, process
and compliance.

**EXCELLENT
AVERAGE ROI**

Excellent average ROI
on fees paid for grant
management (over 650%)
