GRANTED CASE STUDY

ENLIGHTEN ENERGY

£69,887 GRANT RECEIVED FROM INNOVATE UK

NEW OPPORTUNITIES

Enlighten energy is a specialist clean-tech company with an innovative solution to tackle a specific renewable energy challenge in the field of PV panel maintenance. In fact, not only 'in the field' but rooftop solar as well.

Passionate and committed to supporting the global shift towards 100% power generation through renewable sources, Enlighten Energy believe their project can significantly reduce the cost of PV monitoring and maintenance to improve ROI for all parties.

THE CHALLENGE

PV cleaning is one of the most expensive components of Operations and Maintenance costs. Enlighten Energy were seeking to bring their disruptive panel cleaning process to market to reduce energy production losses and significantly increase the efficiency of PV panels.

With an international team of PV experts, Enlighten Energy needed the funding to further develop their core technology.

GRANTED'S APPROACH

Granted approached this project by:

1. Gaining a deep understanding of the clients plans to manage expectations for both parties
2. Researching the available funding for the proposed project to maximise the likelihood for success
3. Preparing a comprehensive Grant Portfolio to enable clients to consider all options available
4. Developing and submitting unique grant applications

“Granted was founded with a skillset in cleantech and we are always keen to get involved in impactful innovation projects such as this one with Enlighten. This has global deployment possibilities and is a significant step in overcoming barriers to the O&M of Solar PV.”

Alex Chalkley

Granted Director

CONCLUSION

Enlighten Energy won £69,887 of grant funding from Innovate UK, in the Emerging and Enabling round. This investment has enabled them to commence proceedings on the development of their technology and also broaden their horizons for the future.

This feasibility study funding will enable Enlighten to better understand the technical and commercial challenges of their novel solution before seeking further investment funding (grant or equity). It means that the founders retain full control of their company at this early stage.

OUR SUCCESS

We have never failed to secure more money in grants, than we have charged in fees when working with an organisation on a defined multi-grant funding plan.

DEMONSTRABLE SUCCESS

Demonstrable success
in securing funding
(>£20m in 5 years).

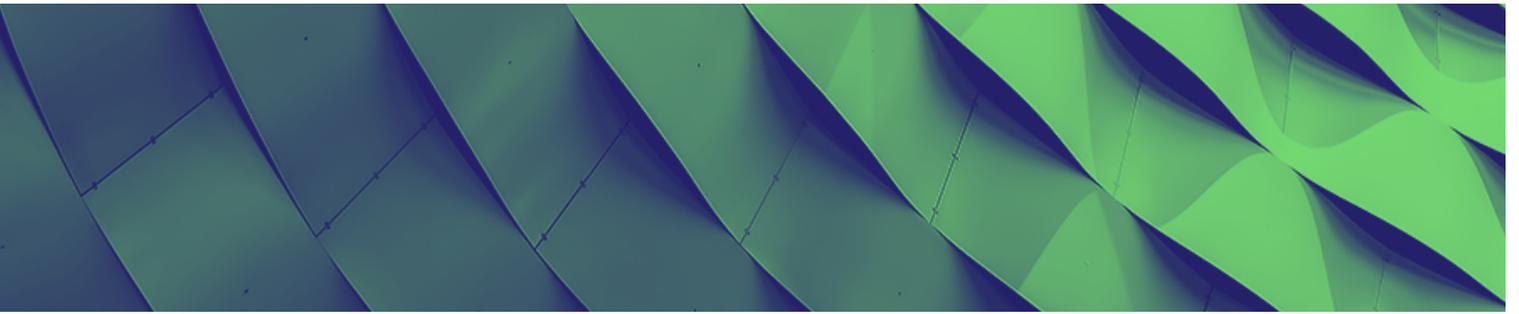

DEEP KNOWLEDGE

Deep knowledge of
funding options, process
and compliance.

EXCELLENT AVERAGE ROI

Excellent average ROI
on fees paid for grant
management (over 650%)
