GRANTED CASE STUDY

ZAP & GO

£700K & £155k GRANT RECEIVED FROM INNOVATE UK

NEW OPPORTUNITIES

Zap & Go hold multiple patents related to the fast-charging and storage of energy in Carbon-Ion batteries – a mid-point between Li-ion and Supercapacitor technology. The team of scientists, engineers and commercial experts are leading the world in the development of advanced energy storage devices with cross-cutting sectorial applications.

THE CHALLENGE

Zap&Go's new cell technology, dubbed Carbon-Ion (C-Ion®), exploits the properties of novel carbon nano-materials and electrolytes to underpin industry-leading performance, including ultra-fast charging and a vastly increased life span when compared to lithium batteries.

Zap & Go wanted to further develop their prototype with the aid of grant funding to enable them to advance the technology and find additional applications in new sectors including the Electric Vehicle and Renewable Energy markets.

GRANTED'S APPROACH

Granted approached this project by:

1. Gaining a deep understanding of the clients plans to manage expectations for both parties
2. Researching the available funding for the proposed project to maximise the likelihood for success
3. Preparing a comprehensive Grant Portfolio to enable clients to consider all options available
4. Developing and submitting unique grant applications

We met Simon at the Rushlight Awards event in London in 2017 and have been working with his talented team ever since. We have secured two grant funds to date relating to core technology development and feasibility into new markets.

Alex Chalkley

Director at Granted Consultancy

CONCLUSION

Zap & Go were successful in securing £700k and £155k of grant funding from the Innovate UK open competition. This funding will assist them in developing their prototype to become industry leading experts for their sector.

I understand private equity finance and had dabbled (successfully) with grants, but I needed a company that could help us navigate the UK R&D grant funding landscape – and write winning bids. I found that in the team at Granted.

Simon Harris

Zap & Go

OUR SUCCESS

We have never failed to secure more money in grants, than we have charged in fees when working with an organisation on a defined multi-grant funding plan.

DEMONSTRABLE
SUCCESS

Demonstrable success
in securing funding
(>£20m in 5 years).

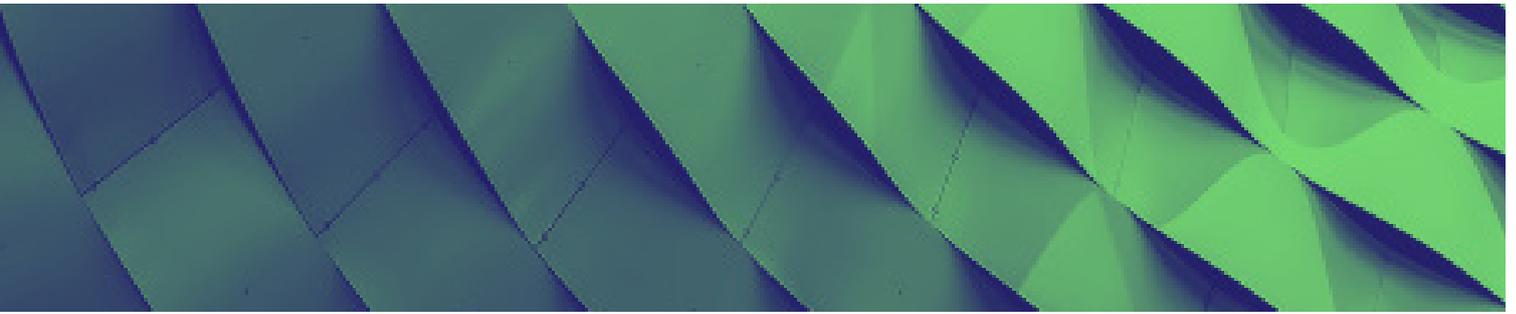

DEEP
KNOWLEDGE

Deep knowledge of
funding options, process
and compliance.

EXCELLENT
AVERAGE ROI

Excellent average ROI
on fees paid for grant
management (over 650%)
