GRANTED CONSULTANCY CASE STUDY

IGNITE DATA

SUCCESSFULLY SECURED £400,000 FROM INNOVATE UK

NEW OPPORTUNITIES

IGNITE DATA is an exciting established SME specialising in advanced data management solutions for clinical research.

THE CHALLENGE

IGNITE DATA uses data and technology to streamline key stages of the clinical research process, specifically with an innovative set of patient recruitment and real-world evidence products & services that are designed to provide better access to the right patients and data.

Research and development grant funding was needed to aid IGNITE DATA in driving the success of their project to see it become a disruptive market leading solution.

GRANTED'S APPROACH

Granted approached this project by:

1. Gaining a deep understanding of the Inspire's plans
 2. Researching the available funding for the proposed project to maximise the likelihood for success
 3. Working with project partners to scope and develop the optimal project
 4. Developing and submitting a compelling grant application
-

Working with Granted Consultancy has been and still is an absolute pleasure. From the moment we crossed paths with their senior management team at a KTP event, their knowledge and professionalism shone through.

Granted supported IGNITE DATA through our grant application, helping to produce extremely high-quality piece of work, which achieved high praise from Innovate UK assessors.

Without doubt, Granted's most critical USP, is their intrinsic knowledge of the process. They already understand the nuances and have the battle scars. Working with them will save you a lot of pain.
